Dear Sir:

The enclosed proposed NPDES permits are being forwarded in order for your staff to proceed with the steps necessary for issuance. Three of these permits have had all necessary administrative procedures completed, including joint EPA-State of Hawaii public notice providing for issuance by the State, and are considered complete, in accord with the requirements of the Federal Water Pollution Control Act Amendments of 1972, and are ready for issuance. These three are: Mauna Kea Sugar Co., Inc. (HI0020389 and HI0020362) and Shell Oil Co. (HI0020354). In these cases, the public notice comment period ended on December 15, 1974.

There are six proposed permits which are considered complete and which are ready for issuance except for the requirement that there be a public notice by the State of Hawaii. These are:

City and County of Honolulu, C/C Jail (HI0020087), City and County of Honolulu, Pacific Palisades (HI0020079), County of Hawaii, Hilo Water Pollution Control Facility (HI0020176), Mauna Kea Sugar Co., Inc. (HI0020397), Mauna Kea Sugar Co., Inc. (HI0020371), and City and County of Honolulu (HI0020061).

Also enclosed with each of these permits are other relevant materials as well as documents from our file on the City and County of Honolulu Waipahu facility (HI0020168). This, taken together with previously forwarded documents, completes the transfer of materials from our files on those applications, held by us, for which permits have not yet been issued. Prior to January 28, 1975, we will forward to your office all supplementary documents in our files of issued permits, which are needed to complete your files.

Should your staff wish to discuss the materials further, please refer them to Mr. Stan Leibowitz of our Permits Branch (415/556-3450).

Sincerely,
